Credential Description: Autodesk certifications are industry-recognized credentials that can help you succeed in your design career—providing benefits to both you and your employer. The certifications provide reliable validation of skills and knowledge, and they can lead to accelerated professional development, improved productivity, and enhanced credibility. AutoCAD software is used by architects, CAD technicians, designers, engineers, project managers, and CAD/IT managers in a variety of industries, including the manufacturing, building, civil, and mapping industries.

Credential Requirements: The AutoCAD Certified Associate exam is a one-hour on-line examination consisting of 30 questions that assess your knowledge of the tools, features, and common tasks in AutoCAD. Exam format consist of multiple choice, matching and point-and-click questions. The required passing score is 72%. Even though not required, it is recommended the student complete an Autodesk Official Training Courseware (AOTC) or equivalent plus 100 hours of hands-on application before sitting for the exam. Exam topics may include the following: Altering Objects; Annotations; Create Template Content; Creating Additional Drawing Objects; Creating Basic Drawings; Dimensioning; Draw Organization & Inquiry Commands; Isolate or Hide Display Objects; Manipulating Objects; Layouts & Visibility; Printing & Plotting; and Reusable Content
